

# SCHEUERMANN Excavating, inc.

Now offering vacuum excavation services...

### Versatile

Operates up to 200 feet away for excavations that are otherwise difficult to access

### Safe

Safe for utilities and for operators  
Won't damage existing features

### Efficient

Spoils stay dry for fast, efficient backfilling

### APPLICATIONS:

- a safe way to locate underground utilities
- quick and easy pipe cleaning
- cleaning out catch basins and water valves
- anywhere larger machinery cannot get and hand excavation is necessary
